## Client Comfort Package

### Client Comfort

- Shows you care about your clients.
- Looks professional, chic and easy to install.
- Customizable to your business.
- Easy to clean and maintain.

*"Highly recommended partitions in any kind of business area, whether it's in an office or salon they are easy to install and keep clean. My clients comment that they look professional and knowing they feel safe with them in place is a good feeling and worth it. It also shows them we care about their health without saying a word and it doesn't affect their experience. We have had lots of positive feedback on the partitions."*

- Jonathan Amorim @ Cucci Cabello Salon
